

ELECTRIC POWER INDUSTRY NEWS

The Cabinet of Ministers approved the General Scheme for placement of electric power facilities until 2042

The total projected volume of commissioning of generating equipment until 2042 will amount to almost 88.48 GW. The total capacity of power plants of the electric power systems of Russia by this date will reach 299.35 GW, the press release says. The share of nuclear power plants in the generation structure may increase from the current 18.9% to 24% in 2042, renewable energy sources - from 0.8 to 3.3%, and the share of thermal power plants may decrease from 62.7% to 57.4%.

Yarenergo warns of the danger of approaching electrical installations

The branch of Rosseti Centre, PJSC - Yarenergo reminds of the danger of electric shock near operating high-voltage electrical installations. There are warning signs at all facilities of the electric grid complex: "Stop! Voltage!", "Don't enter - mortal danger!" This means that there are elements nearby, approaching which poses a mortal danger.

As a rule, accidents at power engineering facilities are caused by ignorance of basic safety rules, personal carelessness, ignoring safety signs and posters, as well as illegal actions.

Tulenergo warns of a new type of fraud!

Rosseti Centre and Volga region, PJSC reports a new type of fraud that citizens are facing. Residents who previously filed complaints about power supply problems are receiving calls via popular messengers. Fraudsters, posing as employees of PJSC Rosseti or insurance companies, report the following:

"Your case has been recognized as an insurance case. To resolve the issue, you must use certain services, which require the transfer of funds." In this way, fraudsters try to convince citizens to transfer money to the accounts they specify.
