

ELECTRIC POWER INDUSTRY NEWS

Results of the week 29 August - 2 September 2022: Optimization and planning in the electric power industry

The key event of the past week was the draft resolution of the Government of the Russian Federation, which separates the concepts of a fault, an emergency situation and a system failure in the electric power industry. The document will ensure systematic work to update the regulatory and technical base in this area, and will allow developing measures to prevent possible violations.
