### COMPANY NEWS

## Igor Makovskiy: it is necessary to develop and introduce additional anti-terrorism measures to protect employees and energy facilities

The head of the energy company held a meeting of the Operational Headquarters, at which the increase in the number of fire attacks by the Armed Forces of Ukraine was discussed, more than 2 times compared to 2023. Separately, new methods of terrorist attacks are considered, including FPV drones and the intensification of sabotage activities at energy facilities. General Director of Rosseti Centre emphasized that all decisions to expand the range of security measures in the regions of operational responsibility are made systematically, based on analytical and practical data.

### The Kirovenergo branch has been placed on high alert due to bad weather

171 crews of Kirovenergo's power engineers are ready to promptly respond to possible consequences of bad weather: 650 specialists and 339 special vehicles. The branch also has at its disposal 142 reserve power supply sources with a capacity of 4.5 MW, which can be used to supply electricity to socially important facilities in the region.
