## ELECTRIC POWER INDUSTRY NEWS

### Regions to be able to set tariffs for the population in relation to electricity consumption

Regional regulators will be able to differentiate tariffs for the population depending on the volume of electricity consumption, follows from the government resolution, published on the official Internet portal of legal information. According to the text of the document, tariffs "can be set with additional differentiation in terms of electricity consumption and groups (subgroups) of the population and categories of consumers equated to it".

## COMPANY NEWS

### The court recovered from a resident of the Tver region more than 200 thousand rubles for electricity consumption without a contract

The Maksatikhinsky interdistrict court satisfied the claim of Rosseti Centre, PJSC represented by the Tverenergo branch to recover unjust enrichment from the citizen. On 19 September 2020, power engineers, conducting an inspection, revealed the fact of non-contractual consumption of electricity by a citizen who arbitrarily connected his residential building to the grid. The violation was recorded by a certificate drawn up in the presence of the defendant and signed by him.
