

ELECTRIC POWER INDUSTRY NEWS

Rosseti's Group ensured the operation of more than 200 charging stations for electric vehicles in 2022

Power engineers implemented the grid connection of 137 electric charging stations at the request of consumers with the supply of a total of 20.55 MW from the grid. The work is carried out within the framework of the Federal project "Electric car and hydrogen transport", aimed at stimulating the production of cars on electric and hydrogen engines and developing a network of charging stations for them.

COMPANY NEWS

Igor Makovskiy summed up the work of power engineers to ensure reliable power supply during the holidays

Igor Makovskiy, General Director of Rosseti Centre - the managing organization of Rosseti Centre and Volga region, held an operational meeting, where the results of the work of branches of the Companies during the New Year holidays from 31.12.2022 to 09.01.2023 were summed up. During this period, adverse weather events, a sharp drop in temperature, snow and gusty winds were observed in all areas of the company's operational responsibility. Due to unfavourable meteorological phenomena, a high alert mode was introduced in 3 branches, and a special mode of operation was introduced in Nizhnovenergo.
