Yaroslavl power engineers increased the volume of clearing of routes along power transmission lines

Since the beginning of this year, the volume of work has increased by 60%.

The repair program of the branch of Rosseti Centre – Yarenergo in 2025 provides for clearing and widening of routes of power transmission lines (PTL) on an area of 3,657 hectares, which is 60% more than last year. In order to fulfill the increased volume, thirteen mulchers and two bulldozers were additionally purchased in cooperation with the Government of the Yaroslavl Region. Heavy special equipment will help reduce the time of work, improve its quality and efficiency, experts say.
