Ministry of Energy: mining in Russia consumes less than one percent of electricity

The share of electricity consumption by cryptocurrency miners in Russia is about 0.64% of the total Russian, RIA Novosti was told in the Ministry of Energy of the Russian Federation. The energy system of Russia, the Ministry of Energy also drew attention to, has a sufficient margin of reliability. The Central Bank sees mining as a threat to the financial system and opposes its legalization. The Finance Ministry takes the opposite view.
