

ELECTRIC POWER INDUSTRY NEWS

Kazakhstan in 2023 increased imports of electricity from the Russian Federation by 156% with prices rising by almost a third

Kazakhstan began to buy electricity from the Russian Federation at a higher price due to new trade rules between the countries. The average delivery cost in the second half of 2023 increased by almost a third, exceeding RUB 5 for 1 kWh. Kazakhstan, according to analysts, will increase the purchase of electricity from the Russian Federation, since it is experiencing a deficit due to long-term underfinancing of its own generation.

Igor Makovskiy held a special meeting of the Headquarters to increase the level of security of energy facilities and the company's personnel

General Director of Rosseti Centre Igor Makovskiy chaired a meeting of the special operational Headquarters to improve the security of the energy complex and counter new threats.

The head of the energy company emphasized that the nature and horizon of external influences has changed significantly. Power engineers need not only to increase their preparedness for emergency situations, but also to expand the methods and means of the anti-terrorist fight. Proposals from heads of cross-border branches, the security unit, as well as the IT department on additional means of protecting energy infrastructure and personnel were heard.
