Power engineers improved the reliability of power supply to consumers in the Ryazansky district

Power engineers from the branch of Rosseti Centre and Volga region – Ryazanenergo carried out a series of projects to improve the reliability and quality of power supply to consumers in the Ryazansky district. The work was completed ahead of schedule as part of the investment program. The Ryazansky district is a dynamically developing area, where every year more and more small businesses appear, the area of individual low-rise housing expands, and cottage communities are built. The population increases in the summer, as summer residents come to relax.
