

ELECTRIC POWER INDUSTRY NEWS

The Russian Government restricts cryptocurrency mining to protect power grid capacity

The Russian Government has approved a resolution designed to prevent shortages of electric energy and capacity caused by the rising load from cryptocurrency mining. The measure aims to protect the interests of ordinary consumers and enhance the reliability of the power supply, according to the Ministry of Energy's press service. Under the new regulations, mining facilities may connect to the electrical grid only under Reliability Category IV.

COMPANY NEWS

Rosseti Centre renovated a street lighting system in the Orel region

Specialists from the branch of Rosseti Centre - Orelenergo are continuing to upgrade street lighting systems in settlements across the Orel region. In the Sverdlovsky district, the power engineers connected a new lighting system to the grid. As part of the project, they installed 27 poles and 35 LED lighting fixtures and laid 830 metres of self-supporting insulated wire, which offers superior reliability and safety features.
