Power engineers connected a sports facility in Belgorod to the grid

Belgorodenergo's specialists electrified the phygital centre on the Berega beach.

This is a unique facility where you can practice both traditional sports - on mini-football, basketball, street gymnastics grounds - and e-sports.

To connect the centre, the power engineers constructed 1.8 km of cable power lines and installed a package transformer substation and equipment for switching power from the main to the backup power source. The power engineers allocated 149 kW of power to the sports facility, fulfilling their obligations ahead of the deadline established by the contract.
