### The Russian Ministry of Energy proposes to establish service standards for electricity suppliers

The Russian Ministry of Energy has prepared a draft government resolution establishing uniform service quality standards for electricity suppliers of last resort, according to a document published on the federal portal of draft regulatory legal acts. "The draft proposes to approve a uniform standard for the quality of service to electricity consumers by electricity suppliers of last resort and to establish the obligation of suppliers of last resort to develop, on its basis, and approve their own service quality standards, which may additionally contain provisions improving the quality of service to consumers," the explanatory note to the draft states.
