Opadchiy: in July, energy consumption in Russia increased by 7.3%

Energy consumption in July in the Russian Federation increased by 7.3% compared to July last year. This statement was made by the Chairman of the Management Board of JSC "System Operator of the Unified Power System" Fedor Opadchiy.

According to Opadchiy, the increase in the consumption occurred for several reasons: abnormal heat, which has been going on for a long time; an increase in the flow of tourists to the southern regions of the country, as well as emergency situations at energy facilities.

COMPANY NEWS

Lipetskenergo summed up the results of the repair program for 6 months

Over RUB 217 million were allocated for the operation, maintenance and repair of equipment during the reporting period.

Power engineers repaired 28,022 km of overhead power lines (OPL) with a voltage of 0.4 - 10 kV, replaced more than 2,971 insulators, 183 poles, 43,789 km of wire.

In order to eliminate temporary interruptions in power supply resulting from branches falling on power line wires, power line routes were cleared over an area of more than 638,451 hectares. To prevent the occurrence of ground fires from dry grass, 6,137 hectares of substation territories were plowed.
