COMPANY NEWS

Smolenskenergo informs about scheduled repairs

Based on the overhaul plan, Smolenskenergo monthly generates a plan of scheduled outages indicating the facilities and dates. At the same time, the branch's specialists try to perform the maximum possible amount of work at the facility without interrupting the power supply to consumers, and to carry out work related to disconnection in the shortest possible time, during a period when the inconveniences associated with the interruption of power supply are minimal.

Marienergo warns of the danger of electric shock and the inadmissibility of unauthorized work in security zones of power transmission lines

Specialists of the branch of Rosseti Centre and Volga region, PJSC - Marienergo remind: unauthorized actions in the security zone of the power transmission line and in the territories adjacent to power facilities can lead not only to disruptions in the power supply, but also pose a mortal danger to life. Any construction, excavation, loading and unloading and repair work near power facilities must be agreed with power engineers.
