

### ELECTRIC POWER INDUSTRY NEWS

#### The Ministry of Energy has developed a draft resolution approving the criteria for the availability of technical capability to implement remote control of electric power facilities and the procedure for their application

The Ministry of Energy of the Russian Federation has developed a draft resolution of the Government of the Russian Federation "On approval of the criteria for the availability of technical capability to implement remote control of technological operating modes and the operational state of power transmission lines, equipment and devices of electric power facilities from dispatch centres of the subject of operational dispatch control in the electric power industry and the procedure for determining the availability of the specified technical capability, as well as the mandatory minimum composition of equipment and devices of electric power facilities, in relation to which remote control is carried out from the dispatch centres of the subject of operational dispatch control in the electric power industry". The document is posted on the Federal Portal of draft regulatory legal acts.

### COMPANY NEWS

#### Our task is to bring light to people even at the risk of our lives

These days, when the whole country has risen to defend the Kursk region, Rosseti Centre's power engineers continue to work selflessly in the border areas and fulfill their main task - to provide electricity to residents.

#### Tulenergo warns: observe the rules for operation of motor vehicles in security zones of power transmission lines!

Power engineers of Rosseti Centre and Volga region - Tulenergo remind you of the need to comply with the rules of safe behaviour near electrical installations.

Heads of enterprises, organizations and institutions, private entrepreneurs, as well as residents of the Tula region must comply with the requirements for the protection of electric grids when carrying out work using motor vehicles.
