

### ELECTRIC POWER INDUSTRY NEWS

#### The turnover of the low-carbon certificate system for 5 months amounted to 4.5 billion kWh

In February–June, 4.5 billion kWh of electricity were qualified in the national system for the circulation of low-carbon certificates, the Market Council reported on 27 June in its Telegram channel with reference to Chairman of the board of the association, Maxim Bystrov, who spoke at the North Caucasus Energy Forum.

“The first stage of the new market mechanism has shown that “green” instruments are in demand in Russia,” said the head of the Market Council.

### COMPANY NEWS

#### Belgorodenergo completed the first stage of construction of grid infrastructure for the Moskovsky microdistrict

Belgorodenergo has completed the first stage of construction of grid infrastructure for power supply to the Moskovsky microdistrict in the suburbs of the regional centre, where it is planned to build housing for 8.5 thousand people. At the first stage, power engineers constructed six transformer substations, three distribution points, installed two integrated switchgears and several cable lines with a total length of 28 km. The connection power of the first stage of the microdistrict was 360 kW.

#### The company's branches connected new enterprises and a residential neighbourhood to power grids

In particular, Vladimirenergo has connected 7 farms and agricultural enterprises to power grids since the beginning of the year. To connect consumers, power engineers reconstructed more than 2 km of 0.4–10 kV overhead lines using self-supporting insulated wire, and installed four 10/0.4 kV transformer substations. The total amount of power provided to the applicants was over 900 kW.
