

ELECTRIC POWER INDUSTRY NEWS

Russian Ministry of Energy supported the introduction of cost "standards" for TGOs

The Russian Ministry of Energy supports the introduction of measures limiting the maximum operating costs of territorial grid organizations providing electricity transmission services, the so-called "standard" method, said Deputy Minister of Energy Evgeniy Grabchak. "We actively support the introduction of standard tariffs for grid companies. And we believe that this will significantly lead to the "transparency" of this business. And, at a minimum, not that it will allow for a reduction in tariffs for electricity transmission, but will allow for a predictable increase in these tariffs, which will be, at least, lower than if we had not switched to this type of regulation," he said during a meeting of the commission of the Russian Union of Industrialists and Entrepreneurs (RSPP) on electric power on Monday, 16 December.

COMPANY NEWS

Voronezh power engineers are preparing for snowfall in the region

Specialists of the Voronezhenergo branch are preparing for bad weather. Snow, blizzards and winds with gusts reaching 18 m/s are expected in the region on Tuesday, 17 December.

457 specialists and 148 special vehicles are ready to promptly respond to possible consequences of bad weather. The crews will keep socially significant facilities and infrastructure facilities under special control. If necessary, 49 backup power sources can be used.
