Rosseti reconstructs a substation in the Amur River region that supplies electricity to the Trans-Siberian Railway

Specialists from the branch of PJSC Rosseti – MES East have begun the reconstruction of the 220 kV Magdagachi substation. As part of the project, a new highly automated power facility will be built – all existing equipment will be dismantled in stages and replaced with modern devices. This will improve the reliability of the power supply of traction substations of the Trans-Siberian Railway and the west of the Amur Region as a whole.

Rosseti Centre and Rosseti Centre and Volga region summarize the results of metal structure production for the first half of the year

A wide range of products is manufactured in workshops at the branches: crossbars, fastening clamps for poles, pads, brackets, grounding conductors and much more necessary for the operation of energy facilities. The production of metal structures allows power engineers to reduce the costs of implementing the repair program and provide Distribution Zones with the necessary materials in the shortest possible time.
