

### ELECTRIC POWER INDUSTRY NEWS

#### The Ministry of Energy approved the procedure for interaction between electric power industry entities and consumers in terms of coordinating the levels of short circuit currents

The Ministry of Energy of Russia, by order N 5 dated 15 January 2024, approved the procedure for interaction between electric power industry entities and electricity consumers on issues of coordinating the levels of short-circuit currents. The document was published on the Official Internet Portal of Legal Information. The relevant rules have been approved to improve the requirements for ensuring the reliability of electric power systems, the reliability and safety of electric power facilities.

### COMPANY NEWS

#### Tambov power engineers install bird protection devices on power lines

Employees are working to install bird protection devices (BPD) to avoid technological violations and prevent the death of birds. The Informationbureau reports this. The design of the device is a bundle of polymer rods with rounded ends, which is attached to the traverse of the pole and does not allow the bird to sit on it.

#### Kirovenergo's employees connected new buildings of two medical institutions to power grids

The Kirovenergo branch completed the connection to the electric grids of a paramedic-obstetric station in the village of Lumpanur of the Sanchursky district, and an outpatient clinic in the village of Leninskaya Iskra of the Kotelnichsky district. Both medical institutions were built to replace old buildings that had reached the end of their useful life. This was reported by the Informationbureau telegram channel.
